

Collective Consciousness

That new awareness that arises once the Kundalini has awakened, and the whole central nervous system is enlightened, and which allows us to feel what is happening to the chakras of ourselves and of others (840702); Collectively enlightened awareness (830129); When we can cure others... are connected to others (790616); You become collectively conscious... that means, in your central nervous system, you start feeling others in yourself... it's a becoming (821007)
