

# Eczema

Yesterday we had somebody who had very bad eczema... all his hands were absolutely charred and horrible... both the hands... and I asked him to put his hands towards me... maybe he might have been cured only by putting his hands... but I had to make the mark of cross and swastika on his hands... and it cleared out. So he saw me doing something... otherwise... 'oh it might have been a coincidence' (810511)
