

Health

There will be no problems with health, if the centres are cleared (790507); There are many doctors in Sahaja Yoga, and they have seen with their own experiences that many patients who were supposed to be incurable are cured. Many drug addicts got right overnight, without paying for it, and without taking any medicines... just through their own power of Kundalini (980705)

Doctors only know the physical side of human beings. So the problem you have... doctors will say there is nothing wrong with you... until it manifests it's physical side... so if there is any problem... we will know first... and doctors will know much later - maybe it will be so difficult that they may not be able to do anything about it (810511)
