

Humour

Be congenial... take a joke from others. If others are joking with you... you should not get angry... take a joke... be a sport. The English language has one very good quality... that they can laugh at themselves... the language has found out ways and methods of how to laugh at yourself... that's something beautiful about English language (800927)

Sweetness... Madhuria... a quality of Shri Krishna, in the way he spoke to and communicated with people (910001; 900811.1) - one has to imbibe within oneself the sweetness... if you are sweet, you are filled with humour, you do not hurt others, and you are not hurt either. Anything can be done with sweetness (880103)

- Jai Shri Mataji -
