

# Pineal Body

Animals do not have much idea of the future - only their left side is developed... so much so that... the pineal body, which is in the brain, and which controls the left side is more developed in animals than in human beings (800809); It stores all the conditionings as superego, is controlled by one of the petals of the Agnya chakra - whilst it is the pituitary body, which creates the ego (830129)

- Jai Shri Mataji -
