

# Sahaja Vasta

The Sahaja State... where you know for definite that you are on the right path... you are on the right state of mind... and in which you do not react... you just see, and appreciate... you just see... it's a drama... you just see and watch... and get the joy out of it. So my own effort was to take you into that beautiful arena of Sahaja... where you will be absolutely one with yourself... one with the nature... with all the people who are around you... with your own Country and countries. Everywhere the whole atmosphere, as they say the whole Brahmanda, becomes part and parcel of you... and you're not separated from that (000507)
